Technology and Office Supplies maintain healthy profit margins, while Furniture significantly underperforms.

Monthly Sales & Profit Performance (2014–2017)

Sales by Customer Segment

Dashboard 1: Executive Sales & Profit Performance

- Sales reached \$2.30M, Orders reached 10K, and Profit reached \$286K.
- Sales grew 46.9%, Orders grew 49.6%, and Profit grew 48.4% compared to the previous year.
- Customer growth was only 1%, suggesting existing customers are driving most of the revenue growth.
- Technology is the top-performing category with \$836K sales and \$145K profit.
- Office Supplies generated stable profitability with \$122K profit.
- Furniture generated \$742K in sales but only \$18K profit, resulting in a low 2.49% profit margin.
- Consumer customers contribute 50.56% of total sales, making them the primary revenue driver.
- Corporate customers contribute 30.74% while Home Office contributes 18.70% of sales.
- Q4 (September–December) consistently delivers the highest sales and profit performance.

Business Recommendations

- Invest more in Technology products and marketing.
- Review Furniture pricing, discounts, and supplier costs.
- Strengthen customer retention and loyalty programs.
- Prepare inventory and promotions ahead of Q4 demand.

"Discount Impact on Profitability"

Sales and Profit Margin by Region

Dashboard 2: Profitability & Risk Analysis

- Tables are the largest loss-making sub-category with a profit impact of approximately -\$18K.
- Bookcases and Supplies also operate at a loss.
- Chairs show the strongest profit margin among analyzed sub-categories.
- Higher discounts are frequently associated with lower profitability.
- Several high-discount transactions generate very low or negative profits.
- West region has the highest sales and profit performance.
- Central region has the lowest profit margin at approximately 7.92% despite reasonable sales volume.
- Regional profitability varies significantly, indicating pricing and cost optimization opportunities.

Business Recommendations

- Reduce excessive discounting and introduce discount thresholds.
- Improve profitability of Tables, Bookcases, and Supplies.
- Optimize pricing strategies for low-margin products.
- Investigate operational and cost drivers in the Central region.
- Focus marketing and inventory investments on profitable categories and regions.
